BRADFORD WHITE®

October 24, 2026

We are disappointed Local 1002 voted against ratification of a new collective bargaining agreement. The tentative agreement, which had been signed by local union representatives, offered meaningful wage increases and valuable benefits for our employees and their families. We are committed to being a leading employer in West Michigan, and the tentative agreement reflected that commitment. Our focus now is on establishing a clear, timely path forward that balances the interests of our workforce with the long-term needs of the business. Prolonged uncertainty does not serve our people or our customers, and we are evaluating next steps with those responsibilities in mind. In the meantime, we remain dedicated to serving our customers with the high-quality water heating solutions they depend on. We will continue to make thoughtful decisions that support our employees and position Bradford White for long-term success.

Built to be the Best®
